You must

Designate a program administrator
WAC 296-842-10505 105-2

Respirator Program
Administrator

Respirator Program Administrator

WAC 296-842-105

Rule

WAC 296-842-10505

Designate a program administrator

Exemption:

You don't need to designate a program administrator if employees use only filtering-facepiece respirators and do so only as voluntary use.

Definition:

Voluntary use is respirator use that's requested by the employee **and** permitted by the employer when **no** respiratory hazard exists.

You must

- Designate a program administrator who has overall responsibility for your program and has sufficient training or experience to:
 - Oversee program development and coordinate implementation
 - Conduct required evaluations of program effectiveness outlined in WAC 296-842-12005.
